

Professional Summary

Backend-focused Software Developer trained at CDAC (PG-DAC), Sunbeam Institute of Information Technology, Pune. Experienced in building scalable applications using **Java, Spring Boot and MySQL**. Strong in **Data Structures & Algorithms (400+ problems solved)** and skilled in developing secure REST APIs using Microservices architecture.

Technical Skills

- **Languages:** Java, SQL, C++
- **Backend:** Spring Boot, Spring Security, REST APIs, Microservices, JWT Authentication
- **Frontend:** React.js, HTML, CSS, JavaScript
- **Databases:** MySQL
- **Tools:** Git, Postman, Docker, Kubernetes(Basic)
- **Core CS:** Data Structures & Algorithms, OOPS

Projects

Online Bank Loan Management System

Tech Stack: Java — Spring Boot — Node.js — MySQL — MongoDB — JWT — Microservices

- Designed and implemented **5+ microservices** to manage complete loan lifecycle.
- Developed secure **REST APIs** for loan processing and user management.
- Implemented **JWT-based authentication and role-based authorization**.
- Integrated **MySQL and MongoDB** for efficient data handling.
- Followed microservices architecture principles for **scalability and fault isolation**.

Airbnb Clone - Full Stack Application

Tech Stack: Java — Spring Boot — Spring Security — MySQL — JWT — REST APIs — React.js

- Developed scalable full-stack system using **Spring Boot and React**.
- Built secure **REST APIs** for property listing, booking and user management.
- Implemented **JWT-based authentication** using Spring Security.
- Designed relational database schema in **MySQL**.
- Implemented booking logic with availability and conflict handling.

Data Structures & Algorithms

- Solved **400+ DSA problems** on GeeksforGeeks and **100+** on LeetCode.

Education

Sunbeam Institute of Information Technology, Pune
PG-DAC (Advanced Computing - CDAC)

Aug 2025 – Feb 2026
Percentage: 70%

Government Engineering College, West Champaran
B.Tech in Electronics and Communication Engineering

Nov 2021 – Jul 2025
CGPA: 7.59 / 10

Certifications

NPTEL Certification – Internet of Things (IoT)

71%

Achievements

- Solved **400+ Data Structures & Algorithms problems**.
- Developed backend systems using **Spring Boot and Microservices architecture**.
